John Cox  
Director  
Lisa M. Osvold  
Deputy Director

---

Wyoming Workers Compensation Division  
Compound Creams

Review of the literature found there was no clinical evidence that compounded creams are more effective than the use of the individual drugs (ingredients) separately.

The Division will continue to approve the use of diclofenac and lidocaine topically, but only as separate prescriptions. **All bills for the compounding of these medications by a pharmacy will be denied.**
